The Prepared Environment

Is your classroom or school ready for a make-over? Join Sean Burkholder and your colleagues for a morning of sharing ideas on how to improve the appearance of our classrooms and school environments to help make them more inviting for children. A properly prepared environment will reduce stress and anxiety as well as limit distractions that disrupt attention and promote self-regulation.

We will discuss some guiding principles, then put them to use by analyzing and critiquing a classroom environment. You will also have the opportunity to obtain feedback on your own classroom or school environment and become inspired to make change happen. The time is now to give your classroom or school a make-over!

Sean Burkholder is a MACTE certified Montessori teacher. He has a Bachelor of Science - Computer Science with a focus on user-interface design and cognitive psychology plus a Bachelor of Fine Arts - Theatre with a focus on directing and stage design. Sean currently teaches Grade 1-2-3 Montessori at Queeneesh Elementary.
